Built on Experience. Driven by Tattoo Culture.

We do not simply build Tattoo Products, we build Tattoo Culture. PANTHER Tattoo Supply started from PANTHER Tattoo Art Center. Since 2000, the center has been dedicated to tattoo art and training a new generation of artists.

Founder Zhang Qingliang began as a professional tattoo artist. In the early 2000s, when Chinese artists often had to craft their own supplies, he developed machines for himself and his students — for artists, by an artist.

From coil machines to rotary machines to state-of-the-art tattoo pens, Panther backs high-quality, stable production — peaking at over two million machines per year. Quality, meticulous standards, and innovation remain the keys.

PANTHER — Engineered for Professional Artists.

厦门黑豹纹身器材起源于黑豹纹身艺术中心。2000年开办以来致力于纹身与图案开发设计；2003年研发出黑豹第一台纹身机；2007年成立

Development History.

2000	Founded Panther Tattoo Art Center — tattoo design & education.
2003	First Panther-brand tattoo machine — widely praised in trials.
2007	Panther Commercial & Trade Co., Ltd. established (1000m ² +, 40+ staff).
2011–2016	Expanded to Tong'an industrial sites (2000m ² → 5000m ² +).
2018	Panther Culture Communication studio for artist evaluation.
2020–2022	Battery grip, adjustable stroke, shortest battery pen, adjustable speed.
2025	Panther Apex Engineering (Zhangzhou) opens — 7500m ² + factory.
2026	Standardized mass-production lines — global delivery capability.

Patents.

These utility-model patents represent in-house original R&D. Panther pioneered these structures; most similar structures in today's market are based on proprietary designs.

Adjustable Stroke Tattoo Pen

可调行程纹身笔 · ZL20212365182.4

Battery Tattoo Pens. Consistent Power.

Panther battery tattoo pens are engineered for professional lining, packing, and long sessions. Each model lists material, stroke, motor, voltage/frequency, battery capacity, charging, weight, and size — presented in a clean catalog table format for quick comparison.

BATTERY TATTOO PEN

PANTHER — Engineered for Professional Artists.

M1 / INTELLI

Battery Tattoo Pen

M1 Tattoo Pen

M1电池笔

Material	Aluminum + Modified ABS
Stroke	4.0 mm
Motor	Outrunner Brushless
Operate Volt	4–12 V
Battery	Po-Li 2000 mAh
Charging	USB-C Fast Charge
Net Weight	207 g
Size	36 × 124 mm

Intelli

智彩电池笔

Material	Aluminum
Stroke	4.0 mm
Motor	Brushless 8V 6500 RPM
Operate Volt	4–12 V
Battery	Po-Li 1800 mAh
Charging	USB-C
Net Weight	165 g
Size	32 × 131 mm

HESTIA / POWERMAX / NANO

Battery Tattoo Pen

Hestia

赫斯提亚

Material	Aluminum
Stroke	2.5 / 3.5 / 4.0 mm
Motor	Coreless 8V/6500 RPM
Operate Volt	4–12 V
Battery	Po-Li 750 mAh
Charging	USB-C
Net Weight	105 g
Size	23 × 133 mm

PowerMax

力王调速笔

Material	Aluminum
Stroke	4.0 mm
Motor	Brushless (speed adj.)
Operate Freq.	3–150 Hz
Battery	Po-Li 1500 mAh
Charging	USB-C
Net Weight	160 g
Size	32 × 130 mm

NANO

纳诺电池短笔

Material	Aluminum
Stroke	4.0 mm
Motor	Brushless
Operate Volt	4–12 V
Battery	Po-Li 1520 mAh
Charging	USB-C
Net Weight	127 g
Size	33 × 92 mm

SMART PRO / POWERMAX V1 / STOKE MINI

Battery Tattoo Pen

Smart Pro

火星无线行程笔

Material	Aluminum
Stroke	2.4–4.2 mm (7 steps)
Motor	Coreless
Operate Volt	4–12 V
Battery	Po-Li 1500 mAh
Charging	USB-C
Net Weight	215 g
Size	36 × 107 mm

PowerMax V1

调速笔一代

Material	Aluminum
Stroke	4.0 mm
Motor	Brushless
Speed	180–9000 rpm
Battery	Po-Li 1500 mAh
Charging	USB-C
Net Weight	160 g
Size	32 × 112 mm

Stoke Mini

电池行程细笔

Material	Aluminum
Stroke	2.5 / 3.0 / 3.5 / 4.0
Motor	Coreless 8V/6500
Operate Volt	4–12 V
Battery	Po-Li 750 mAh
Charging	USB-C
Net Weight	164 g
Size	28 × 142 mm

Traditional Pens & Power Supply.

Wired traditional tattoo pens and the BigBox power supply complete the professional bench setup — clear voltage guidance, motor type, and compact dimensions for studio use.

TRADITIONAL PEN · POWER SUPPLY

PANTHER — Engineered for Professional Artists.

HB095 / HB139 / HB247

Traditional Tattoo Pen

HB095

软硬笔

Material	Aluminum
Stroke	3.2 / 3.7 mm
Motor	Ironcore (custom)
Operate Volt	≤ 8 V suggested
Net Weight	150 g
Size	31 × 122 mm

HB139

变形金刚

Material	Aluminum
Stroke	3.5 mm
Motor	Coreless 8V/6500
Operate Volt	≤ 10 V suggested
Net Weight	151 g
Size	40 × 89 mm

HB247

火星行程笔

Material	Aluminum
Stroke	2.4–4.2 mm (7 steps)
Motor	Coreless
Operate Volt	≤ 10 V suggested
Net Weight	163 g
Size	32 × 118 mm

BIGBOX

Tattoo Power Supply

BigBox

长方形电源

Material	Aluminum
Adapter	3.42 A
Jumpstart	10 V in 0.2 s
Volt	0–18 V
Net Weight	349 g
Size	113 × 65 × 38 mm
